

Surnames
Hebrew and Russian Images and their Transliterations
Extracted from the Jewish Vital Records of Kremenets

Dr. Ronald D. Doctor, Co-Coordinator, Kremenets Shtetl CO-OP
rondoctor@earthlink.net

20 October 2005

The following table contains images of Hebrew/Yiddish and Russian surnames that appear in the vital records of Kremenets Uyezd, Ukraine. It also includes the English transliteration of these names. All names in the table are from records that have been translated, edited and proofread. The table currently contains 961 *different* surnames, many with multiple spelling variations. As we complete additional translation and proofreading, we will expand the list. The table is alphabetized according to the Hebrew given name. Names are from the following vital records of Kremenets:

Births: 1870 & 1871, 1893 through 1895

Deaths: 1870 through 1872, 1894

For the most part, we have used “phonetic transcription” to indicate how the Hebrew/Yiddish given. The Kremenets Shtetl CO-OP document “*Kremenets Hebrew/Yiddish Transliteration Guidelines*” describes the techniques we used to indicate how surnames used in the Kremenets area would sound in English. The Guidelines document is available on the JewishGen’s Ukraine Special Interest Group (Ukraine SIG) website:

<http://www.jewishgen.org/Ukraine>

or on our Kremenets Shtetlinks website:

<http://www.shtetlinks.jewishgen.org/Kremenets/>

With a few exceptions, our *Guidelines* are based on the ANSI Z39.25-1975 General Purpose Standard for Hebrew, YIVO’s transliteration schema for Yiddish, and Alexander Beider’s book, *A Dictionary of Ashkenazic Given Names*, and on e-mail correspondence with Beider. To resolve any remaining ambiguity in the Hebrew transliteration, we have used the Russian pronunciation as a guide to the English spelling. Please see our Transliteration Guidelines for details.

For Russian, we have used the transliteration table from Beider’s book (p. 237). Sometimes the Russian genitive form is used in the vital records. In those cases, we have followed Beider’s example and have presented the reconstructed nominative form in the transliterated Russian surname column.

Corrections to this document are welcome. If you see any names in need of correction, or if you find other errors in this list, please contact me via e-mail.
