Jewish cemeteries in Chisinau (Kishinev)

During the long history of Jewish Chisinau there were several Jewish cemeteries in town, from which only part of one of them exists now. The cemetery was called the Jewish cemetery on Skulyanka or “New” cemetery. It was established in the 18th century and there were about 40,000 graves in the cemetery. On the first page of this report you can see how large the cemetery was. In 1958, part of the cemetery was used for a market square and later for a park with tennis courts and buildings. In the 1960s it was called Park Kuybysheva, and now it is Park Alunel.

For details on the destroyed Kishinev cemeteries see <http://www.jewishgen.org/Bessarabia/files/conferences/2014/KishinevDestroyedCemeteries.pdf>

There is also a town cemetery Doyna in Kishinev where Jews have 21 sectors. 9630 records with 9333 photos were sent to JOWBR and are now available, see Doyna Cemetery report at <http://www.jewishgen.org/Bessarabia/files/cemetery/Kishinev/KishinevDoynaReport.pdf>

Jewish House of Eternity, Jewish Cemetery Registry

The registry of all burials in Kishinev Jewish Cemetery was compiled and published in a book: House of Eternity, Kishinev, 2004

JewishGen / Bessarabia SIG signed an agreement with the publisher that JewishGen will translate the registry into English and post at the JewishGen.org.

Why do we submit more records when exist in the book? It is because there are new burials not included in the book. Also, we translated many inscriptions, which were not in the book.

For some of the records we do not have images. This is probably because the writing of that inscription became illegible, and it might be among “Unknown” graves.

Also, why do we have more records than images? The main reason is that in many cases one grave/inscription is for 2 or more people buried.

The 2,774 Unknown graves images were sent to JOWBR, but also available at Bessarabia website. You can access them by Sectors:

[Sectors 1, 2 and 4 Unknown Graves](#)

[Sector 3 Unknown Graves](#)

[Sector 5 Unknown Graves](#)

[Sector 6 Unknown Graves](#)

[Sector 7 Unknown Graves](#)

Every burial has a plot number in the book, and the same plot number is uploaded to JOWBR. All burials in Sector 2 have a prefix “02”, and in Sector 4 –“04”, etc. and after that a 4-digit plot number. For the records added to the registry, there is a letter added to the end of the plot number: A, B or a, b.

Main Cemetery Gates

From “Jewish Heritage sites and Monuments in Moldova”

According to the report “[Jewish Heritage Sites and Monuments in Moldova](#)”, created by United States Commission for the Preservation of America’s Heritage Abroad, 2010, about Kishinev Jewish cemetery: *The very large Jewish cemetery in Chişinău, then the single largest Jewish site in the country, is still in use and it is frequently visited. The approximately 100 hectare area is surrounded by a continuous masonry wall with a gate. It contains more than 20,000 graves, which date back to the 17th century. Gravestones and markers are made of marble, granite, limestone, sandstone, slate and other materials. Some graves are marked with ornate structures in the form of mausoleums. Many graves have metal fences around them; others have portraits applied to the stones, as well as other decorative items. There is a monument to the victims of the Holocaust, and the ruins of a pre-burial house. Several restoration efforts, including re-erection of stones and clearing of the vegetation, have been carried out here in past years. Several Jewish groups from Moldova and abroad have participated in caring for the site. Address: Milano Street 1.*

Grave stones with swastikas

Five monuments in Sector 2 were desecrated with swastikas:

Our appreciation to **Ariel Parkansky, Ron Miller, Maury Kitces and Rick Levine** who helped remove swastikas from the five memorials above.

Volunteers

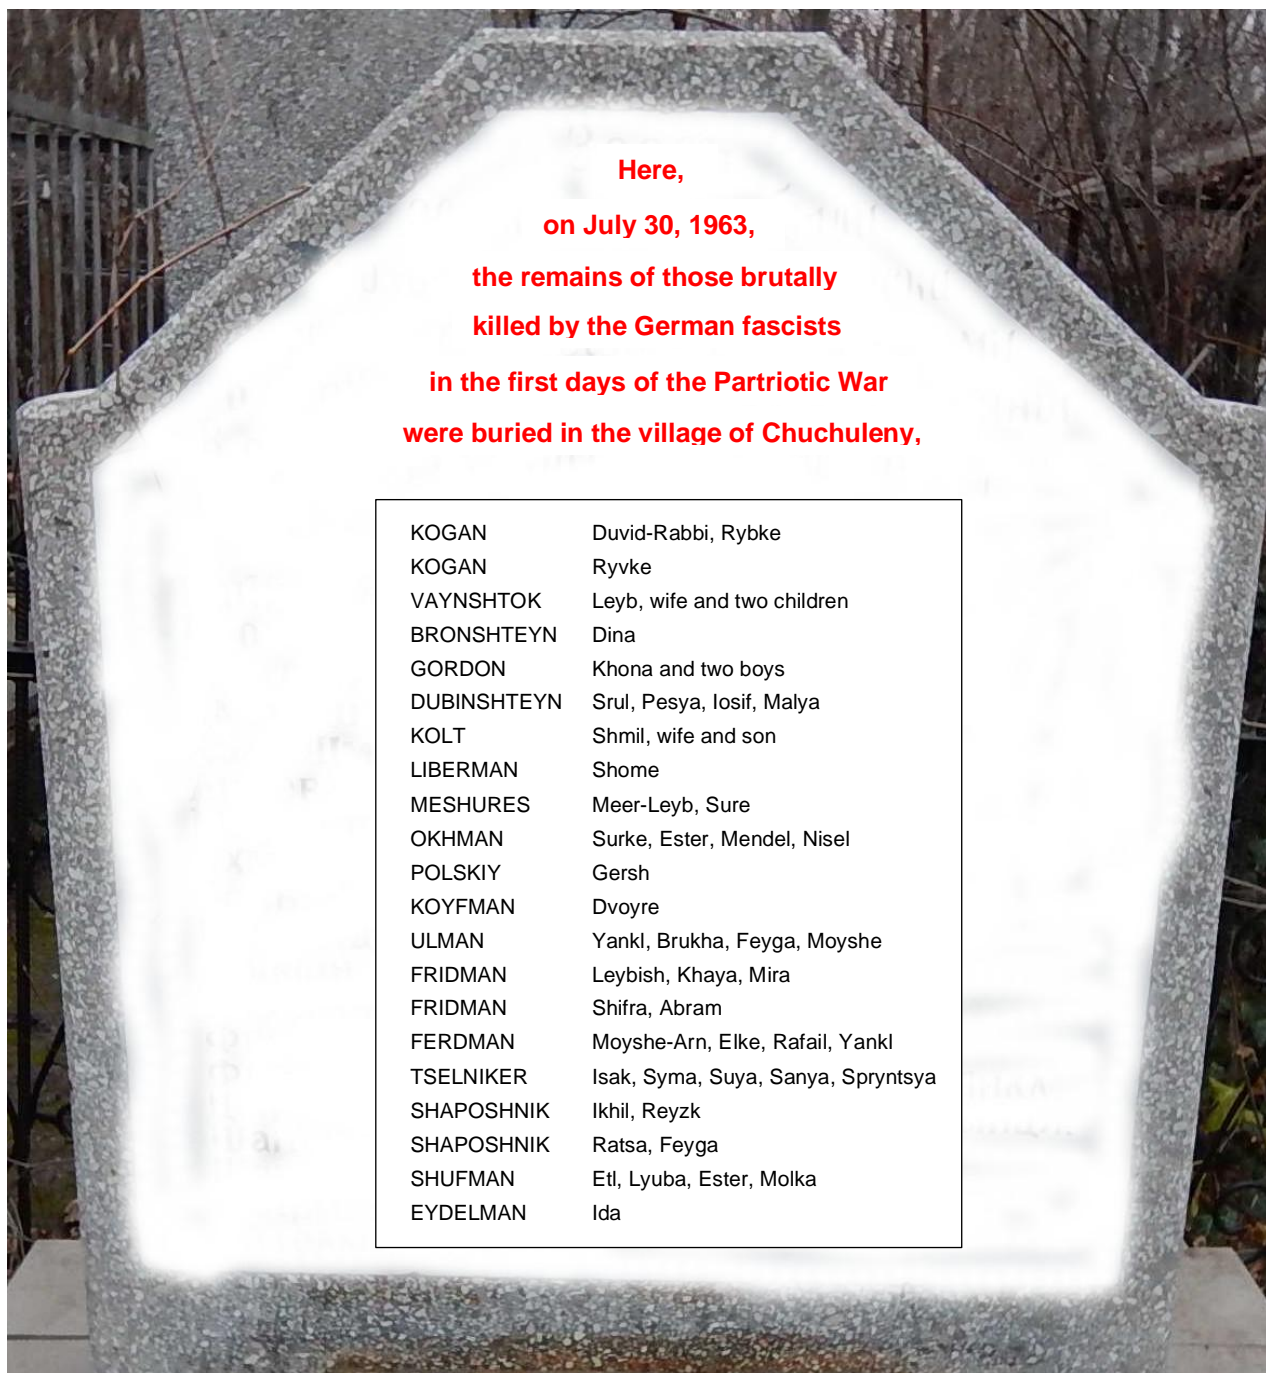

Translation of the whole registry (book) was done by **Terry Lasky**, and he also worked on first reading. The second reading was done by **Nathen Gabriel and Yefim Kogan**.
