## MARCONIPHONE R.F. CIRCUIT

All-wave Radio offers you a wealth of new and exciting Radio entertainment, but short-wave reception is ruined by background noise unless you have an "R.F. Circuit" in your set. You should insist, therefore, on this feature—which is the **secret** of first-class, world-wide Radio reception—when buying All-wave Radio. This important technical feature is part of all Marconi A.C. superhet Radio and Radio-Gramophone models. Be sure to hear the popular model 559 (illustrated)—the world's "snappiest" 6-valve, All-wave superhet Table-Grand with 3 wavebands, 16.5—2,000 metres, and with **that extra sixth valve** which is a feature of Marconiphone All-wave value.

OR EXTENDED TERMS

*There is no finer value for money than the Marconiphone All-wave Radio-Gramophone model 567 at 23 guineas—a 6-valve superhet instrument incorporating the exclusive Marconiphone "R.F. Circuit" referred to above.*
