This is one of many destroyed Jewish cemetery in Bessarabia/Moldova. If you have any "old" or "new" photos from that cemetery, please share with us, send them to me. Also if you know someone who was buried there, please contact me and we will add that name to the list of people buried there.

Right now, we know FIVE Jews who were buried at that place. Names came from our members whose relatives born, lived, and died in Baimaclia.

So, total number of records is 15 + 5 = **20**.
