JewishGen
Ignition and Signature Grants

JewishGen (jewishgen.org) and the **Museum of Jewish Heritage — A Living Memorial to the Holocaust** (mjhnyc.org) are pleased to announce new ignition and signature grant opportunities to support the inception and/or completion of Jewish genealogy projects that expand records available to family historians.

JewishGen is the largest and most significant resource for Jewish genealogy in the world. **As a proud member of the Museum of Jewish Heritage family, JewishGen at once serves a local New York community and a global audience.** With these grant opportunities, JewishGen and the Museum demonstrate their shared commitment to stimulating new genealogy projects; adding to the wealth of records currently available; and supporting initiatives undertaken by Jewish genealogical and historical societies, schools, libraries, synagogues, and other community-based organizations.

Successful projects will take creative approaches to expanding the resources made available by Jewish-Gen. Projects may focus on primary or secondary records from any geographic location. The records they produce will be eligible for inclusion in JewishGen's award-winning databases.

Ignition grants of up to $5,000 and signature grants of up to $25,000 will be awarded to exceptional applications from institutions, organizations, **and community groups.** Those interested in applying may contact **Avraham Groll, Director of JewishGen**, at agroll@mjhnyc.org to ensure that they are notified when the application becomes available.

Save the date! **The JewishGen Ignition and Signature Grants application will open on August 15, 2017.** Please note that in addition to these new grant opportunities, JewishGen and the Museum of Jewish Heritage may offer in-kind support to help you enhance your project, promote your work, connect with researchers, and engage new audiences. We look forward to hearing about your initiative and boosting your reach.
