The whole fenced Comrat Jewish cemetery

There are about 51 grave stones standing or laying on the ground at the Comrat cemetery. Some of them do not have any inscription, and broken.

There are 43 records we uploaded to the JOWBR, with 43 photographs of them.

Also 8 graves were unrecognized, because of no writing or very little writing, from which we could derive any names. These 8 photos you can view at the Bessarabia SIG website / Cemetery section or directly here: [Unknown Graves at Comrat cemetery](#).

Here are our members of JewishGen who helped to decipher the writings at these graves:

Basea David Moscovici

Tsvetlana Spasova

Inna Vayner

Harvey Kabaker

Thank you very much to all of you! Without your help that project will not be possible!
