Christian Hermann

The Colgne-based photographer Christian Herrmann has travelled Eastern Europe for years to document such traces. As a photographer, he is above all interested in the places that have not yet been transformed by a "culture of remembrance" and which immediately reveal the devastating power of dictatorships of the 20th century. In 2020, Christian Herrmann was awarded the Federal Cross of Merit by the President of the Federal Republic of Germany for his work.

Session:

[Borderlands: Traces of Jewish Life in Ukraine and the Republic of Moldova](#)
