

## **Anna Royzner**

### **Session: Research in Moldavian Archives: Step by Step**

Do you know the full name of your grandmother? Who were her parents? Their occupation ... . Not everybody can answer these simple questions. We don't know our relatives; they are not with us. But we can bring them back to life. When we learn our ancestry, we feel ourselves in a new way in this world. You start to realize that you are not only a particle in it. I will tell you about the documents that are held in the archive of Kishinev and Ukrainian archives that keep the records on Bessarabia shtetls. I will try to lead you to success in finding your roots.
