

List of Jews Persecuted from Leova, 1941

Introduction by Joel Waters

Background:

“The Extraordinary State Commission to Investigate German-Fascist Crimes on Soviet Territory” was created by the Soviet Union at the end of World War II to document German crimes during the occupation. This commission compiled testimonial information gathered from neighbors, eyewitnesses, and survivors. Regional commissions contributed their reports to a centralized commission in Moscow.

This document is the Commission's report of Jewish Holocaust victims from Leova, Bessarabia. Because of the testimonial nature of this document it should not be considered a comprehensive nor definitive list of Jewish victims from Leova. The birth year information in particular has been noted to be highly inaccurate.
