Jews in Rybnitsa: 163 Jews in 1847, 1,574 Jews lived in the town in 1897 from a total of 4,029 and 3,216 Jews in 1939. Currently the Jewish Community has about 400 members.

The project was started by JewishGen, Bessarabia SIG at the end of 2015. All photographs were done by Galina Freidkina, resident of Rybnitsa, Moldova.

There are burials from 1870s to 1970s at the cemetery. At some monuments, there are names of relatives and friends who perished during the war.

About half of the inscriptions are written only in Hebrew, some are written only in Russian, and the remainder are in both languages.

A number of inscriptions are damaged and were very hard to read. You may see “?” near the name or dates. We tried our best and are still not completely sure what is on the stone.
