

Surnames in 19th century revision lists for towns in Bessarabia

Compiled from data extracted by the Bessarabia Special Interest Group
for the JewishGen Romania & Moldova Database

How to use this document

This list can be helpful in finding a surname that did not turn up in a search of the JewishGen database because the spelling differs significantly from what you entered in the search field, despite using "sounds like," phonetic, fuzzy and other search methods. It is organized by town. Numbers show how many times a given surname appears in lists extracted for a given town. Data for this document came from lists for various years between 1824 and 1875, processed as of August 2015. Use the alphabetical links below to jump down.
